TOP FINISH

Two file sides for a perfect finish. With the combination of a coarse and extra fine file, you can achieve the perfect finish during everyday work or even competitions. Use the TopFinish for top results, or in combination with any of the other Bellota rasps.

KERCKHAERT
Dedicated to excellence

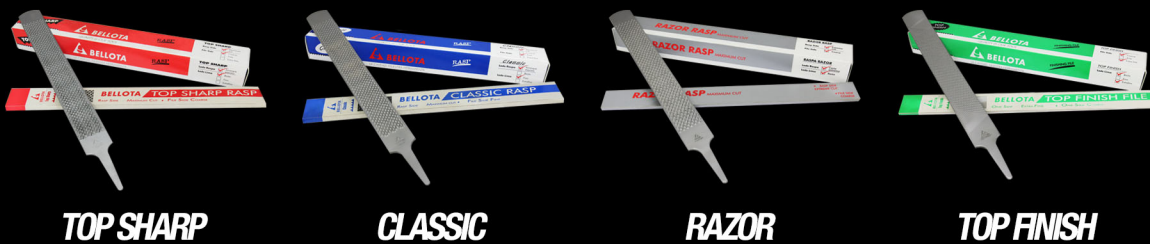

PRESS RELEASE

Over 200 years of combined experience, now working for you to improve standards in farriery around the world.

We are pleased to announce that the Royal Kerckhaert Horseshoe Factory and Bellota Herramientas are launching a collaboration for the distribution and development of the Bellota quality horseshoe rasps. By combining our knowledge and distribution strength with Bellota's years of experience in fabrication and development, the most advanced range of high quality rasps will now be available in all the world's markets.

During the past months Bellota and the Royal Kerckhaert Horseshoe Factory have been working closely together sharing experiences and investing in ways to bring the Bellota rasps to a higher level. This has resulted in new machines that allow computer precision sharpened rasps, new high quality steel alloys and clear differences between the styles.

With a rasp for every application thinkable, the Bellota collection covers all. Whether you want to go shoeing, go plating, go aggressive or go smooth, all rasps are perfectly balanced to deliver a perfect result.

The collaboration between Bellota and Royal Kerckhaert is unique in the world. Two independent companies, with mayor worldwide influences and both with their own expertise, working together for the farrier industry.

Introducing the Bellota rasp brand into unknown markets and reintroducing the new and improved models into existing markets will be our top priority in the upcoming year. With great quality and competitive prices, the Bellota rasps will find their way into every farriers basic equipment. With improved quality and much more consistency than you will find in other brands, Bellota has a collection of rasps specifically designed for all types of horseshoeing. With strong branding, marketing and stock control, stocking Bellota will allow you to gain new customers and increase your margins.
